EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Byrne on 8/9/07.

The application has been amended as follows:

Cancel claims 6,12 and 13.

2. The following is an examiner's statement of reasons for allowance: Claims 23-25 are drawn to a method of making a crystalline choline ascorbate having specific diffraction lines and crystal properties. The process comprises mixing ascorbic acid with trimethylamine and a solvent, while adding gaseous ethylene oxide, followed by crystallizing the resultant choline ascorbate. This entire procedure of mixing and reacting operates between 0-5 degrees Celsius. The Klein patent though making crystalline choline salts comprising mixing organic acids, with trimethylamine and gaseous oxide, the steps are distinctly different. The prior art reacts the ethylene oxide first with the trimethylamine and solvent creating a reaction product (choline). This product is next chilled overnight before the organic acid is added. Next the reaction is cooled and crystallized at a low temperature. At no point in the process is the organic acid and trimethylamine reacted together. Also the process is longer and takes several days to complete. The process of the instant claims is more efficient producing a highly pure choline salt. The

process does in one more efficient step, what the prior art takes several days and many multiple steps to complete. For these reasons at least the claims are patentably distinct over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Micah-Paul Young whose telephone number is 571-272-0608. The examiner can normally be reached on M-F 6:00-3:30 every other Monday off.
